

Desora Mint

RESIDUAL DEODORANT CONCENTRATE & MALODOR COUNTERACTANT

Product # 408

DESCRIPTION

Our **most concentrated** mint fragrance deodorant and malodor counteractant. Special organic ingredient keeps flies and other insects away and maggots from forming. Nothing else **eliminates** odors faster. Great for trash rooms and dumpsters.

Desora Mint cleanses the air of offensive garbage odors, smoke, animal and human waste and other unpleasant odors. Reduces insect infestation, complements existing ventilation systems and helps create a fresh smelling environment.

Desora Mint is designed for use in garbage rooms, stables, lavatories, sick rooms, locker rooms, air conditioning systems, and wherever smoke or unpleasant odors occur. Desora Mint will eliminate flies around garbage pails, and will completely destroy the odor of fire and smoke from rooms and buildings after fire damage. Its power lasts for months.

It is the perfect addition to any cleaning job. Combines a fresh mint fragrance with a powerful odor counteractant.

FEATURES AND BENEFITS

ELIMINATES ODORS instead of covering them, improving air quality.

INSTITUTIONAL strength deodorization.

NON-TOXIC, non-caustic, biodegradable.

HELPS in the creation of a healthier environment by reducing fly infestation and bacteria.

CAN BE USED to treat all types of garbage.

MIXES with water and cleaning solutions for use anywhere odor control is needed.

ECONOMICAL concentrate, use 2-4 ounces per gallon of water.

LONG LASTING pleasant mint fragrance.

USAGE

Recommended for commercial, industrial, institutional and household use and wherever smoke or unpleasant odors occur.

DIRECTIONS

Dilute 2-4 ounces per gallon of water and spray with a trigger or pressure sprayer. Increase dilution as needed. This solution may also be used for fogging.
