

# Very VANILLA

## Concentrated Deodorizer

Product # 428

### DESCRIPTION

A liquid concentrated deodorizer for multipurpose use with a pleasant vanilla fragrance. Very Vanilla Concentrated Deodorizer can be used on any surface which water will not affect, sprayed into air or in wick deodorizing devices.

### USAGE

Restrooms, public places, factories, trucks, freight cars, air conditioning systems, gyms, locker rooms, closets, basements, bathrooms, pantries, refrigerators, wick deodorizing devices. This product is safe for all surfaces which water itself does not affect. However, test fabrics in an inconspicuous area prior to overall use to determine color fastness.

### DIRECTIONS

When using this deodorant by spray method, make a fine spray and direct the mist upwards. Spray may also be concentrated directly on affected areas.

**FOR GENERAL DEODORIZATION:** Use dilution of 8 ounces per gallon of water. Spray or mop this solution on walls, floors, etc.

**FOR LAVATORY USE AROUND TOILET BOWLS AND URINALS:** Use dilution of 12 ounces per gallon of water. Spray or swab the bowl water. Spray or swab the urinals including base and floor around fixtures. Allow the solution to remain in contact with the surface as long as possible.

**DEODORIZING IN THEATERS, HALLS, AUDITORIUMS AND OTHER PUBLIC PLACES:** Spray dilution of 16 ounces per gallon of water. In affected areas with strong odors, cover the area liberally with dilution of 24 ounces per gallon of water.

**INDUSTRIAL, DEODORIZATION SUCH AS FISHERIES, HOLDS OF SHIPS, STORAGE BINS, TRUCKS, PLANES, FREIGHT CARS, FACTORY EQUIPMENT, ETC.:** Spray the air in affected area with dilution of 16 ounces per gallon of water. Mop or swab the walls and floors.

**FOR DEODORIZATION IN AIR CONDITIONING SYSTEMS:** If the system is equipped with a water pan or air filter over which the air washes, use dilution of 24 ounces per gallon of water. If no water pan or air filter is available, use a large, flat pan in front of blower and place it so that air washes over the solution.

**FOR USE IN GYMS LOCKER ROOMS, SHOWER BATHS, WASH BASINS, ETC.:** Spray lockers inside and out with dilution of 16 ounces per gallon of water. For elimination of perspiration odors, wash the floors and walls with dilution of 12 ounces per gallon of water.

**GENERAL HOUSEHOLD USES SUCH AS MUSTY CLOSETS, BASEMENTS, BATHROOMS, PANTRIES, REFRIGERATORS, STORAGE CLOSETS, LOCKERS, SMOKE, TOBACCO ODORS, COOKING ODORS:** Use dilution of 12-16 ounces per gallon, depending upon intensity of the odor. Spray affected area. To eliminate odors from cooking vessels, wash vessels with dilution of 16 ounces per gallon. Floors and walls may be mopped or swabbed with dilution of 8-12 ounces per gallon.

**FOR USE IN WICK DEODORIZING DEVICES:** This material can also be used in wick devices for general deodorizing. Fill the bottle with dilution of 16 ounces per gallon.

### PRODUCT SPECIFICATIONS
